

## Technical Advisory Team

We are deeply grateful to the time and essential advice of members of our Technical Advisory Team:

**Alexandria Brasili:** Alexandria is a Research Associate at the Maine Mathematics and Science Alliance. MMSA finds inspiring new ways to get people excited about science, technology, engineering and math today, so that our youth can become the innovators and workforce of tomorrow through professional learning, research and evaluation, and building relationships and statewide networks. Alexandria was the project lead for the 2019 Census of Community-Based Environmental Learning in Maine and has also been involved in the Teach ME Outside initiative.

**Jennifer Cirillo:** Jennifer has worked with Shelburne Farms since 2003, where she coordinates professional learning experiences collaborating with educators to transform education systems towards sustainability, equity and wellness. Her sustainability work spans international connections as she currently serves as a co-chair for the Regional Center of Expertise Greater Burlington and was a 2020 Teach SDGs Ambassador.

**Alicia Heyburn:** Alicia is Executive Director of Teens to Trails, a Maine non-profit whose mission is to connect students with life-changing outdoor experiences. She and her organization are passionate about building respectful relationships between people and the outdoors for personal health, ecological awareness and thriving communities.

**Emmy Wollenburg** serves as the statewide Program Design & Implementation Manager for RiseVT. She spent over a decade working in public health at the Wisconsin Division of Public Health and the University of Wisconsin School of Medicine and Public Health. Her experience includes public health program planning, management, and evaluation. She most recently led communications and outreach for several environmental public health programs, including a focus on healthy community design.
